

sengled element plus

ZigBee®-Compatible, Programmable LED Bulbs

- Schedule, dim, and switch on/off with SmartThings™, iControl™, Alexa Voice Service and other smart home hubs, as well as most wall dimmer switches
- Tunable to your just-right white light from soft white (2700K) to daylight (6500K)
- Stays up-to-date with OTA firmware upgrades

Smart Lighting that Runs Like Clockwork

Enjoy the convenience and simplicity of long-lasting, energy efficient lighting that's programmable, too! Add up to 50 Element Plus A19 bulbs to the Element Hub and take control of your light at home, and while you're away. What can Element Plus do? Streamline your routine with "set it and forget it" scheduling. Set the mood for dinner, dance parties, homework and more with in-app color temperature tuning. And save energy with auto on/off programming. With Element, you don't have to choose — it's at your fingertips.
